

MANUAL DE INSTALAÇÃO

VIGO PRO
EMBUTIR

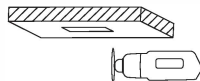

1 - Desligue a rede antes de realizar a instalação;

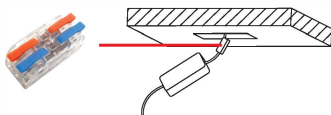

2 - Faça o recorte no forro utilizando o gabarito do produto;

RECORTE:

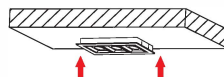

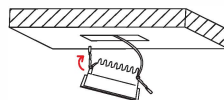

2W- 38x38mm
4W- 35x68mm
6W- 35x95mm
10W- 35x136mm
20W- 35x270mm

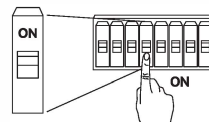

3 - Conecte o driver que acompanha o produto na rede elétrica (Indicamos o uso do Conector de emenda PIX);

4 - Eleve as molas para encaixar o Vigo Pro no recorte realizado, primeiramente um lado e posteriormente o outro;

5 - Ligue a rede elétrica e pronto! Seu Vigo Pro está pronto para iluminar o ambiente!
